

# Staying at

# a Hotel

My family and I will ride in the car for awhile to go to the hotel.

A hotel room is where I sleep, wash, get dressed, and keep some of my things while I travel away from home.

First, I will wait in the hotel's lobby. It might be crowded. It might be noisy. But I won't wait very long.

I may walk down new hallways and staircases and see new people. I may even ride in an elevator. This won't take long. It might be neat!

I will go into a hotel room with my family. It is not my room at home. It is a different place to sleep, wash, get dressed, and keep some of my things until I go home.

With my family, I can explore how the hotel room looks and feels and sounds.

I will return home with my things after I visit the hotel.

I can feel safe. My family thought about my needs when picking this hotel room.

I can show what I like and what I don't like.

This hotel can be fun!
